

RESTAURANT LE CLOS

Our Chef and his team honor a cuisine that highlights the gourmet riches of our Normandy and Parc Regional of the Perche. By doing a lot of research from small local producers, their Cuisine is deliberately classic, authentic but revisited in a contemporary way by emphasizing the quality of the products, the accuracy of the cooking, the daring combination of flavors, the subtle seasonings, the short juices ...

But while respecting the products of the seasons and practicing "Responsible" purchases within the frame work of the protection of our environment according to our Charter of Relais & Châteaux.

○ Green apple 62 € Gourmet 4 courses
